

TARRANGOWER TOMORROW

COMMUNITY PLAN 2021

This is just the beginning. *Tarrangower Tomorrow* is in your hands

Environment	Economy	Community	Heritage	Arts
<p>The Tarrangower community loves its surrounds and wants to see action taken on better weed management, with strong partnerships between community groups and government bodies regarding local land management.</p> <p>Households are keen to explore more recycling options and ways to minimise household waste.</p> <p>You can protect our natural environment and enhance our public spaces by joining a local group, attending a working bee or planting more indigenous plants in your garden.</p>	<p>As a regional community, Tarrangower knows that strong connections between local producers, retailers and consumers increase community cohesion and strengthen the local economy.</p> <p>Working to improve visitation across the four seasons coupled with a 'buy local' promotion is great way to boost local economic possibilities.</p> <p>If promoting the area and creating a booming local economy interests you, join the action.</p>	<p>Tarrangower's active community and sporting clubs create many opportunities for getting involved.</p> <p>Working with local organisations, you can help reduce social isolation and improve community cohesion.</p> <p>Together we can support young families, expand access to medical facilities and understand the impact of weekenders on the community.</p> <p>You could be interested in exploring ways for sporting clubs to work together, improve facilities and encourage cycling for transport and recreation.</p>	<p>The community is passionate about protecting our landscape and Indigenous heritage, while also sharing it with all those who visit the area.</p> <p>It recognises that enhancing the appearance of our town, along with improving the maintenance and signage of walking tracks is what makes Tarrangower a destination of note.</p> <p>The frequency, number and speed of large trucks passing through Maldon is a concern for some.</p>	<p>With a vibrant and varied calender of cultural and creative events, we can promote and support existing events or create new ones.</p> <p>Tarrangower would like to grow its profile as a centre of arts excellence, and encourage participation in the arts across all ages.</p> <p>We look to work together to provide opportunities for local artists to showcase and sell their work.</p> <p>There is much to learn about the culture, history and language of the Dja Dja Wurrung people.</p>

Grateful thanks to the following who provided services and funding:
